**Designated Meeting Zone (By Floors)**  
***Location: Grass Lawn at State Capitol***

The Safe Meeting Place has been divided into different “zones” by floor number. Please note that each employee should go to their floor’s designated area on the map above to help their company’s fire warden to ensure that all employees are accounted for.

The numbering above reflects an approximation of the “zone” that each employee should report to.

Please do not block any walkways or the sidewalk while at the safe zone.
